

## INSTRUMEN WAWANCARA

Integrasi Teknologi *Augmented Reality* (AR) Terhadap Kemampuan Komunikasi Bahasa Inggris Karyawan di Industri Pariwisata Di Sumbawa

Nama :  
Jabatan :  
Hari/Tanggal :  
Petunjuk Pengisian : Bacalah setiap pernyataan di bawah ini dengan baik, benar dan teliti, kemudian jawablah sesuai dengan pengalaman saudara selama mengimplementasikan AR

Berikut 5 pertanyaan wawancara yang digunakan untuk mengetahui hambatan dalam memanfaatkan teknologi AR untuk meningkatkan keterampilan berbicara bahasa Inggris dengan memperluas kosakata lingkungan mereka berdasarkan pandangan karyawan.

No	PERNYATAAN	
1.	What are the main challenges you face when using AR technology to improve your English-speaking skills and environmental vocabulary?	<p>1. One of the biggest challenges is the complexity of the AR interface. It takes time to get used to the technology.</p> <p>2. For me, the issue is the lack of real-time feedback. AR is great for visual aids, but I need more immediate correction or guidance while speaking.</p> <p>3. I think the biggest challenge is the difficulty of my phone installing AR technology.</p> <p>4. The barrier I face is accessibility.</p>
2.	How do you feel about the current content offered through AR in terms of expanding your environmental vocabulary?	<p>1. I'd like to see more vocabulary tailored to my daily tasks.</p> <p>2. I agree. It would be more helpful if it included specific phrases or terminology that I actually use in my work environment, especially in the tourism sector where precise communication is key.</p> <p>3. The AR content is interesting.</p> <p>4. I like the content because it's easy to follow.</p>
3.	What kind of improvements or additional features would you like to see in AR to make it more effective for learning English vocabulary?	<p>1). I would like to see more interactive dialogues in AR. Right now, it feels like a one-way experience.</p> <p>2) More personalization would be great.</p> <p>3) I'd appreciate a feedback system that could analyze my</p>

		<p>pronunciation in real-time and offer corrections.</p> <p>4) AR could improve by incorporating more cultural context into the lessons.</p>
4.	Do you think AR technology is engaging enough to keep you motivated in learning new vocabulary?	<p>1) Yes, it's engaging because it's visually stimulating and offers a unique way to learn, which is different from traditional methods.</p> <p>2) I find it engaging and the visuals are impressive.</p> <p>3) It's a bit of both. I like the immersive experience AR provides.</p> <p>4) AR is fun to use, but it needs more gamification elements, like progress tracking or rewards, to really keep me motivated over the long term.</p>
5.	What do you think could be done to address the neutral or less positive responses some employees have regarding the effectiveness of AR?	<p>1) I think better training would help. Some employees may not be fully comfortable using AR.</p> <p>2) It might help to tailor the AR content more closely to each employee's specific needs and tasks.</p> <p>3) Improving the ease of use is key.</p> <p>4) Getting more employee feedback and regularly updating the AR content based on that feedback could address some of the concerns.</p>
